Creating an Absence

1. Under the **EasyConnect** section click **Create Absence**, select Employee Group (e.g. Elementary Teacher, ECE, etc.) and if the absence requires a Replacement (Y/N).
2. Enter the **Date** and **Time** of the absence. If the absence spans multiple days select **Add Days**, pick your end date and the days of the week the employee will be away.
3. From the drop-down list select the **Absent** employee name, **Assignment**, **Reason** for the absence and the **Absence** percentage if it's not Auto populated (e.g. 100%: full day, 50%: half day). You can also enter **Additional Info** and a **Release Code** that will be for your records and not visible to the Replacement.

If your school board allows it, you can leave the assignment field in your absence blank for non-replaceable employees. You will not be required to select an assignment before saving your absence.

4. Click **ADD REPLACEMENT**. The **Date** and **Time** will default to match the absence.
5. Select the **Fill Method**, and **Pay rate if it's not Auto populated** (percentage or hours). If your School Board uses Charge Back codes, enter it by number, name, or type "???" to list all options. Add additional codes by selecting **Add Charge Back**.
6. When you have entered all the Replacement details click **OK**.

7. Finish by clicking **SAVE**. If the employee group is configured to automatically select all Replacements you are done.

If you need to manually select Replacements, you will be directed to the **Add Contacts** page. Make your selection and click the **ADD** button to complete this absence.

Multiple Employees, Dates, Times, and Subjects

1. Follow steps 1-7 from 'Creating an Absence.'
2. Additional **Absent Employees** or **Replacement Employees** can be added to your absence by clicking **ADD ABSENT EMPLOYEE**.
3. Verify that you filled all your Replacement times and then click **SAVE** to process the absence.

Filtering Emails In Your School Board Outlook or Gmail

EasyConnect will email you when an absence has been created, filled, edited, deactivated and if the absence remains unfilled after contacting all available Replacements.

All emails regarding EasyConnect are sent from info@applytoeducation.com. Here are some tips on how to adjust your email filters in order to better regulate the influx.

1. Filter on the **From:** info@applytoeducation.com
2. Filter on key words included in the **Subject Heading:**
 - a. Assignment Offered
 - b. Filled
 - c. Absence Created
 - d. Still Contacting
 - e. Unfilled
 - f. Cancellation
3. Filter on the **Contents if you want to filter on specifics:**
 - a. School
 - b. Assignment (for example if you only want to see custodian absences)

Be Aware of Pop-Up Blockers

If you click on a button (like 'Calendar' at the top of an Absence List) and the screen flashes without displaying what you want to see its likely you have pop-up blockers turned on.

The Google Chrome web browser has recently changed how they display a blocked pop-up. Now, there is a little square inside the address bar with a red X in it.

If you click on it, you can select to 'Always allow pop-ups from www.applytoeducation.com.

Additional Features Based on School District Configuration

Depending on how your EasyConnect settings have been configured for your School District, there are additional options available. Below outlines the steps for the following EasyConnect customizations.

Change Requests After an Absence Has Been Sent to HR

Once an absence has been to “**Sent to HR**”, any edits being performed require approval in order for the absence to be processed. Your Human Resources department will receive a change request for the update that was made and will either ‘**Accept**’ or ‘**Reject**’ the change. All information regarding edits to absences can be viewed through the **Adjustment Log**.

Approving Records for Export

Use your Homepage to monitor your absences from the EasyConnect section. From the Homepage, simply click on a # to view the absences for the indicated work flow step.

The Absence List on the Export Workflows page will display all records for the approval step you are responsible for. If your School District has permitted the use, you can bulk approve or reject the records displayed. If the bulk approval is not an option, please click on the Code of the record that requires approval, review the details and click the appropriate button (e.g. approved, reject, reviewed, submit, etc.).

Replacement Employees Cancelling Accepted Assignments

If a Replacement Employee cancels an accepted assignment within a pre-determined timeframe set by your HR department the following will occur:

- A cancellation email is sent to the Administrator and includes the reason for cancellation and the fill method used to fill the absence.
- EasyConnect will resume contacting Replacements during your contact times if the 'EasyConnect' fill method was used to fill the absence and Replacements are still available. If the Fill Method was not 'EasyConnect' the Administrator will need to manually put the absence back into the system.
- The Replacement is blocked from accepting other assignments for that day from the EasyConnect Job Board. They can still receive offers through the phone/text and can be filled manually for assignments.

Employees Cancelling Accepted Assignments

If an Employee cancels an accepted assignment within a pre-determined timeframe set by your HR department the following will occur:

- A cancellation email is sent to the Administrator and includes the reason for cancellation
- The Replacement will receive a notification email and they are made available to accept other Assignments.

Turn Off EasyConnect Emails
