Policy Statement

It is the policy of the Keewatin-Patricia District School Board to consider the potential closure of schools when circumstances indicate that the viability of one or more schools is in question. Prior to making any decision to close a school, the Board will undertake a comprehensive review of relevant information and opinions. Such reviews will include a determination of the value of the school to the students, the community, the school system and the local community. The Board will consult with the school community in the review process and provide opportunities for members of the school community to express their views, prior to the Board’s decision on school closure.

Rationale

1. The Keewatin-Patricia District School Board must ensure all operations of the Board are carried out using the most efficient and effective methods available.
2. The Keewatin-Patricia District School Board is an advocate of community consultation and all stakeholders will be provided ample opportunity for input into the decision making process.
3. Although schools may have an importance to the community beyond instruction, schools may cease to be viable educational, physical and/or financial entities.

Guidelines

The Board will conduct pupil accommodation reviews in accordance with the Ministry of Education’s “Pupil Accommodation Review Guideline” as amended from time to time. The Ministry’s Guideline revised as of April 2018 applies to accommodation reviews effective April 27, 2018.

The following guidelines are intended to provide additional direction. Where there is a conflict between the following guidelines and the Ministry’s Guideline, the Ministry’s Guideline will prevail.

1. The identification of schools for potential closure will normally come from the Board’s Long-Term Capital Plan. However, schools may also be identified for potential closure outside the Long-Term Capital Plan for any of the following reasons:
